CLOUD CLIENT WORKSPACE

Cloud Client Workspace solutions address the needs of regulated industries to ensure higher security and more manageability.

HEALTHCARE

Healthcare professionals need to securely access both their applications and patient records, regardless of location or available station. Dell Cloud Client Workspace solutions allow you to focus on your patients rather than endpoints – with improved security, simpler administration and better performance.

RETAIL

Retail IT needs to be mindful of expansion plans, data security, management and the durability of systems, making cloud client computing a natural choice for the sector. Dell Cloud Client Workspace solutions are secure and easy to manage and ultimately improve the instore and online retail customer experience.

GOVERNMENT SERVICES

Government IT systems come with their own unique set of challenges, but at the forefront are security and strict compliancy requirements. Dell Cloud Client Workspace solutions provide government, local, regional and federal agencies a secure platform, which enables IT to meet strict government mandates to access highly sensitive information. Employees can access their cloud environment securely, while data is protected from the datacenter to the edge.

FINANCIAL SERVICES

The technical needs of financial services are demanding – they need to fit the business and comply with policies. Data accuracy, integrity and access speed are integral and systems failures or delays could be damaging. Dell Cloud Client Workspace solutions help to make your infrastructure more reliable and manageable to keep your company's data at minimal risk.

EDUCATION

- Within the education sector, instructors need to instruct and students need to learn – just as business professionals need to do business. Dell Cloud Client Workspace solutions can empower your school, college or university – through improved security, simpler administration and better performance for IT professionals, educators and students.

Secure by design

Work confidently from anywhere with solutions designed to augment the security of your VDI and cloud environments.

Unified approach to I.T.

Modern management with hybrid cloud deployment provides greater control and agility.

Optimized user experience

Access digital and virtual workspaces with unprecedented simplicity and flexibility.
